

Jem Compact Hazer Pro™

The perfect haze solution for any application!

The Jem Compact Hazer Pro is a versatile new haze machine from Martin Professional designed for the highly demanding professional market. Its ability to produce exceptionally fine atmospheric haze in a short period of time makes it an ideal choice for rental houses, shows, theatres, TV studios, clubs, bars, cruise ships, theme parks and much more.

Robust yet small and lightweight, the Jem Compact Hazer Pro is capable of dispersing an even haze with superior optical clarity and reflectivity, the perfect haze for highlighting today's highly defined light beams. A high-quality air pump system ensures smooth haze distribution while a unique mixing channel allows the haze to optimize before being expelled.

An Eco mode extends run times and improves fluid economy while a Silent mode slows the fan speed for operation in noise-sensitive environments. Fluid consumption is astonishingly economical due to a specially formulated C-Plus haze fluid that extends hang time and leaves no residue on fixtures.

Designed for easy serviceability, the Jem Compact Hazer Pro is also simple to use via an on-board digital display and standard DMX control with digital remote option. Haze level and fan speed are variably controllable while maintaining continuous output. Haze levels are easy to pre-set and setting timed programs is straightforward as well.

- Finest haze production in its class
- Small particle, even haze
- Continuous output
- 1 minute heat up time
- Water-based fluid with long hang time
- Low fluid consumption: 95 ml/h max
- Low noise
- Lightweight
- Optical Density Timer Control system (ODTC)
- Variable haze and fan controls with 5% increments
- 2.5 liter fluid capacity
- Sealed fluid system for transportation
- Advanced Pump Technology (APT)
- Shutdown button prevents clogging
- Shutdown with automatic start-up cleaning mode (if shutdown not performed correctly)
- RDM ready
- On-board DMX 5pin
- User-friendly on-board control panel
- Optional flying kit, air director and flight adaptors

Preliminary Data

Physical

Length: 532 mm (20.9 in.)
Width: 224 mm (8.8 in.)
Height: 278 mm (10.9 in.)
Dry weight: 8.5 kg (18.7 lbs.)

Performance

Operating time: Continuous
Warm-up time (approx.): 1 minute
Maximum operating time at minimum output (2.5L): 70 Hours

Control and Programming

Control options: Onboard digital control panel with 4 digit display
Control options: Continuous or timer-controlled output, 0-100% adjustable output level
Control options: Adjustable fan speed level, 0-100%
DMX channels: 3 (Haze, Fan, Special functions)
RDM: RDM Ready
Optional digital remote control

Construction

Housing: Steel & aluminum
Heat exchanger: 900 W

Fluid System

Fluid pump: Oscillating piston, high pressure
Onboard fluid capacity: 2.5 l
Compatible Fluids: Jem C-Plus Haze Fluid™ only

Installation

Orientation: Floor or optional flying kit

Connections

Power connection: Neutrik PowerCon
DMX data: 5-pin XLR
Remote control: 3-pin locking XLR

Electrical

AC power (EU models): 220-240 V nominal, 50 Hz
AC power (US models): 110-120 V nominal, 60 Hz
Main fuse (220-240 V power): 6.3 AT
Main fuse (110-120 V power): 10 AT

Thermal

Maximum ambient temperature (Ta max.): 40° C (104° F)
Exterior surface temperature, steady state: 30° C (86° F)
Max. nozzle temperature: 290° C (554° F)

Approvals

EU safety (EU model)
ETL approvals (cETLus) pending

Accessories

ONLY FOR USE WITH C-PLUS FLUID
Jem Compact Hazer Pro Remote Control: P/N 92765040
Air Diverter: P/N 92625011
Flying Kit: P/N 92610003
C-Plus Fluid 4x2.5L: P/N 97120413
C-Plus Fluid 2.5 gal/9.5L: P/N 97120414

Ordering Information

Jem Compact Hazer Pro, 110 V: P/N 92225960
Jem Compact Hazer Pro, 240 V: P/N 92225950

Martin[®]

Founded in 1987 and headquartered in Aarhus, Denmark, Martin lighting solutions are industry standard on tours and events, theatres, nightclubs, and major television studios around the world, as well as indoor and outdoor architecture and commercial applications. We maintain a presence in the USA, UK, Germany, Denmark, France, Italy and Singapore with associated companies in Japan, the Middle East, Hong Kong and Argentina. We operate the industry's most complete and capable distributor network with local partners in nearly 100 countries. Martin's parent company, Schouw & Co, is an industrial conglomerate with 2009 revenue of approximately 1.5 billion USD. For more information please visit www.martin.com
